

My Comfort Cutter™

Pairs with
TrueCut rulers
for clean, straight
cuts!

Extend the blade guard and pull in the **release** to drop the **blade** and **pin**.

Place the new blade onto the **pin**, and press into the handle until it clicks.

Can be set up for right or left-handed use, with or without the ruler guide.

Shown: Right-handed setup using ruler guide.

Shown: Left-handed setup without ruler guide.

Swapping Hands

Take the steps below to switch between right and left-handed setups.

Pull in the **release** to drop the **blade** and **pin** from the cutter.

Retract the **blade guard** to pull it from the handle.

Push out on the blade release to detach the **release clasp** from the handle.

Move the release clasp to the other side and push the **guide** into the **guide slot**.

Flip over the handle. Insert the lever part of the **blade guard** into the handle. Lay it flat and extend the guard to lock it in place.

Re-install the blade and pin, or blade, ruler guide, and guide pin.
