Installing & Registering

Automated Quilting Software

Copyright Feb 22, 2021 GraceWood, Inc (Reproduction Prohibited) Version 1.1

When installing the software for the first time, you will not be connected to the QuiltMotion via the USB cable. Connecting to the quilting machine will come after the software installation is complete.

To ensure the software is able to run properly without interruption, go to "Checking for Windows Updates" on page 18, and "Optimizing Your Windows Settings" on page 19. The screens shown are in Windows 10, if you are running an earlier version of Windows, your screens may look slightly different.

Confirm your tablet is set to the correct time and that your primary language is set to English.

Program Installation Instructions

The following steps will walk you through the installation of the Quilter's Creative Touch software onto your tablet.

1 Take the USB thumb drive from the case. Remove the cap and plug your USB thumb drive into the tablet.

• Windows may prompt you to "Select to choose what happens with removable drives." Tap this message to select what happens when you insert a drive into your USB port.

QCS (D:)

P

Select to choose what happens with removable drives.

• Select Open folder to view files.

8 Click the verification link in your phone or email. A screen will display stating that the verification was successful.

-	
0	
Э	

Press "OK" back on this screen.

🖏 Software Registration Validation 🛛 🕹			
STOP - IMPORTANT!			
Follow the instructions below, then click OK *AFTER* you have completed the steps.			
You must now validate your Software Registration			
'Validation' is how we make sure this action is actually being requested by you.			
If you gave us your mobile phone number, you will receive a text. Simply click on the link in the text message and you're done. (It may take a minute or two to arrive. Don't proceed until it does.)			
Otherwise, go to your email inbox and find the email from 'support@graceframe.com'. Click on the button as instructed, then you're done.			
If you cannot find the email, check your JUNK folder. If you have multiple emails from 'support@graceframe.com', use the latest one.			
You may delete these texts/emails once the steps are done.			
You have 30 MINUTES to complete the verification!			
ок			

10 When the program boots back up, a popup will ask if you wish to continue Simulation Mode.

be using.

13 Registration is complete! When you are ready, close Quilter's Creative Touch, and plug your tablet into your quilting machine. Then re-open the software to begin quilting! Enjoy using Quilter's Creative Touch 5!

Connecting to the Internet

- To connect to the Internet, swipe in from the right on your tablet. Click on **All Settings**.
- Click on Network & Internet.

• Under Status, tap the link that says **Show available networks**.

The list of available Wi-Fi networks will show up. Locate your local Wi-Fi connection, select it. If you have never connected to this network it will prompt you for your Wi-Fi password. Enter in your password and click on **Connect**.

If your Wi-Fi button is greyed out, click on the button to enable the Wi-Fi. If your tablet has a dedicated button to enable Wi-Fi you must turn that on.

Checking for Windows Updates

Close all other programs before launching your software. Some Antivirus programs will prevent the software from installing, it is best to exit out of all programs before beginning the installation. Make sure your Windows software is updated prior to installing the Quilter's Creative Touch software.

• Follow the on-screen instructions to install the updates. The tablet may restart several times, depending on how long it's been since the last update, the process could take several hours. Continue this until the Windows Update status reads **"Your device is up to date. Last checked..."**

Optimizing Your Windows Settings

To prevent Windows from interrupting the program while you are quilting, there are several settings we should look at.

Swipe in from the right and click on the All Settings button.	ablet mode Network	ocation
Click on System .	Syste Display, noti powe	D m fications, er
Click on Power & sleep .	 Home Find a setting System Display Notifications & actions Power & sleep Battery Storage Tablet mode Multitasking 	Power & sleep Screen On battery power, turn off after 5 minutes ~ When plugged in, turn off after 15 minutes ~ Sleep On battery power, PC goes to sleep after 15 minutes ~ When plugged in, PC goes to sleep after 30 minutes ~
Use the dropdown menus to navigate down to the selection Never .
